

The highly efficient thermal shell featuring **I**nsulated **C**oncrete **F**orms is the main energy feature of this home design.

**Dan Thomas, Dan Thomas Builders, will be available to answer questions on the many aspects of this energy efficient home.**

***Energy Efficiency features include:***

- Sealed and insulated crawl space
- R-24+ ICF exterior walls
- Blown-in R-38 attic insulation
- Dual fuel HVAC system, 3 HVAC “zones”
- Tankless hot water heater
- Bamboo floors in bonus room
- Low-E, argon gas filled windows
